Address: Philosophy of Science Center, Sharif University of Technology, P.O. Box: 11365-11155, Tehran, Iran
Telephone number: +98 21 66164176

Philosophy of Science Center has been established in Sharif University of Technology in 1995 as the first academic institution in this field of study in Iran. The study of philosophical issues arising from scientific theories, methodology of scientific inquiries, the relation and perhaps cooperation between science and religion, and the moral concerns regarding the development of science and technology form the main focus of education and research conducted at this Center. In addition to that, our students who are mainly graduated from engineering and science departments are free to pursue their own philosophical concerns during their stay in the Center.

Graduate Programs

The Philosophy of Science Center offers the following programs:

1. MA Program in Philosophy of Science

Program Structure

<table>
<thead>
<tr>
<th>1st year</th>
<th>2nd year</th>
<th>3rd year</th>
</tr>

Sharif University of Technology
2. PhD Program in Philosophy of Science and Technology

The PhD program at SUT’s Philosophy of Science Center places major emphasis on independent inquiry. Some of our recent and current PhD research projects are “Metaphysical Consequences of Methodological Naturalism”, “Inquiry about the Truth Conducivity of Inference to the Best Explanation”, “Normativity of Intentional Content and Its Implications for Cognitive Sciences”, and “Divine Action and Human Consciousness”.
